

A woman in a white lab coat is washing her hands in a sink with a young child. The scene is set in a bright, clean environment with large windows and a green plant. A CPAP cleaning machine is visible on the counter to the right.

CleanPAP™

BETTER, SAFER CLEANING

CPAP Cleaning You Can Trust

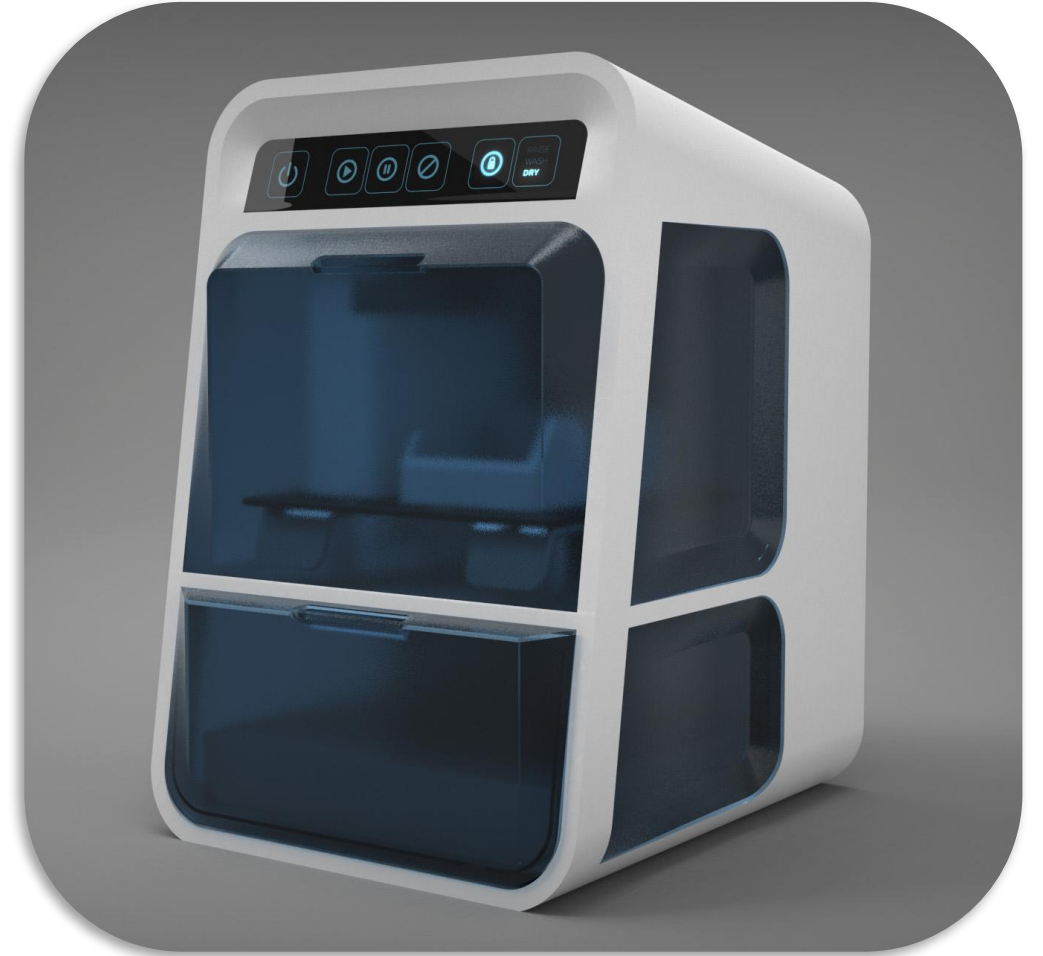

info@CleanPAP.shop

Mission

"At CleanPAP™, our mission is to enhance the lives of CPAP users by providing a reliable and effective cleaning solution.

We understand the challenges of maintaining clean CPAP equipment, and we are here to make it simpler and easier for you."

Capital

- Seed Funding- \$615k, Owner/Founder, Friends/Family
- Plans for next stage of funding to get through development, Alpha and Beta models, small beginning inventory and marketing blitz
 - \$100k Crowdfunding campaign
 - \$200k Bank Debt
 - \$200k Favorable Terms from Tangent
 - \$200k Matching Canadian Government Grant
- Angel Investing to continue marketing, hire support staff per the hiring plan, build 5,000–7,500 units to meet first few months expected sales, fund year 1 of operations
- Raising capital for a total of \$2,000,000

TANGENT
DESIGN ENGINEERING

Tangent
Design Engineering Team

- Creates and commercializes world-class technologies.
- Supports clients in defining technology for market needs.
- Helps manage complexities in new tech development.
- Assists in stakeholder alignment, product strategy, business planning, and team building.
- Aims to solve problems and improve the world.

Cleaning CPAP Parts Is Time-Consuming and Inconvenient

- For people using CPAP for sleep apnea treatment, cleaning CPAP parts is an inconvenient hassle.
- Weekly cleaning of the CPAP mask, tubing, and water chamber is recommended by manufacturers.

Safety And Effectiveness Issues

- Ozone CPAP cleaners have been detected to release higher than safe levels of Ozone into CPAP devices.
- Long term exposure to Ozone can lead to significant health problems, including respiratory problems, chest pain, and asthma
- Ozone CPAP cleaners are NOT FDA-approved, and they have been linked to over 5 million CPAP devices being recalled.

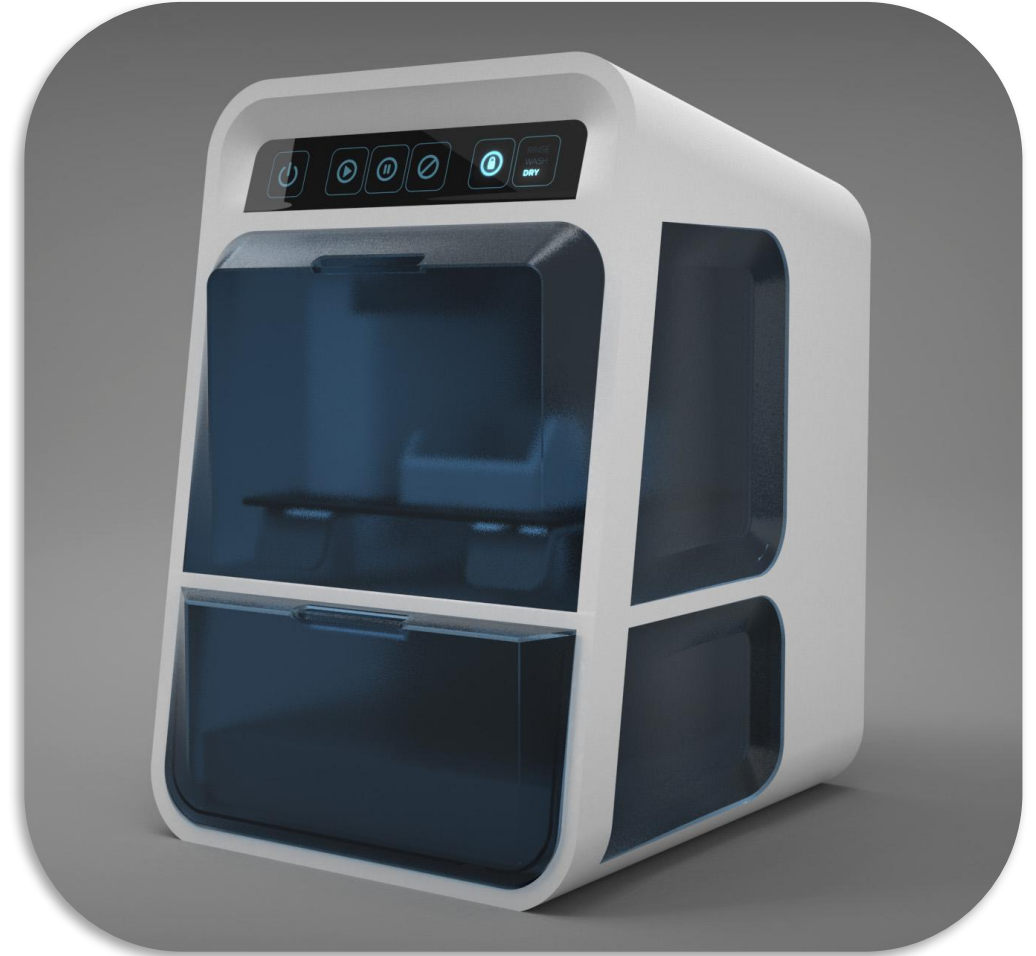

Safety And Effectiveness Issues

- The FDA's studies on UV Light cleaners found significant variations in UV light intensity and exposure duration across different cleaners.
- This significant variation in UV light intensity may be associated with safety and performance concerns.
- UV Light cleaners are NOT FDA-approved.

CleanPAP

INNOVATIVE & AUTOMATED

- Innovative automated CPAP appliance for maintaining fresh and clean supplies
- Automatically cleans masks, hoses, and water chambers, eliminating the need for manual washing
- CleanPAP™ avoids issues associated with ozone CPAP cleaners, preventing product recalls (e.g. Philips Respironics in 2021) and long-term health risks

CleanPAP

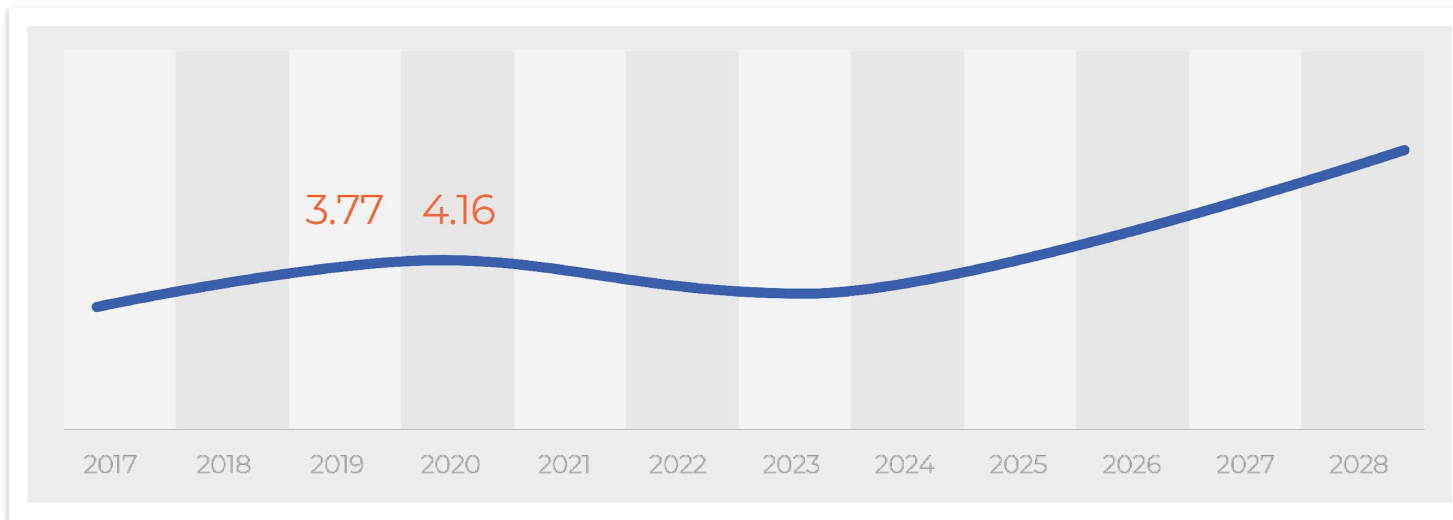

BENEFITS

- Sleek, **patented (US 12,030,096 B2)** design
- Portable with a single-load compartment for easy operation
- 20-minute cleaning cycle and automatic drainage
- Removable water container and indicator icons
- No ozone or other toxic gas emissions
- Safe and effective – no external plumbing required

North American Sleep Apnea Devices Market Size, 2017-2018 (Usd Billion)

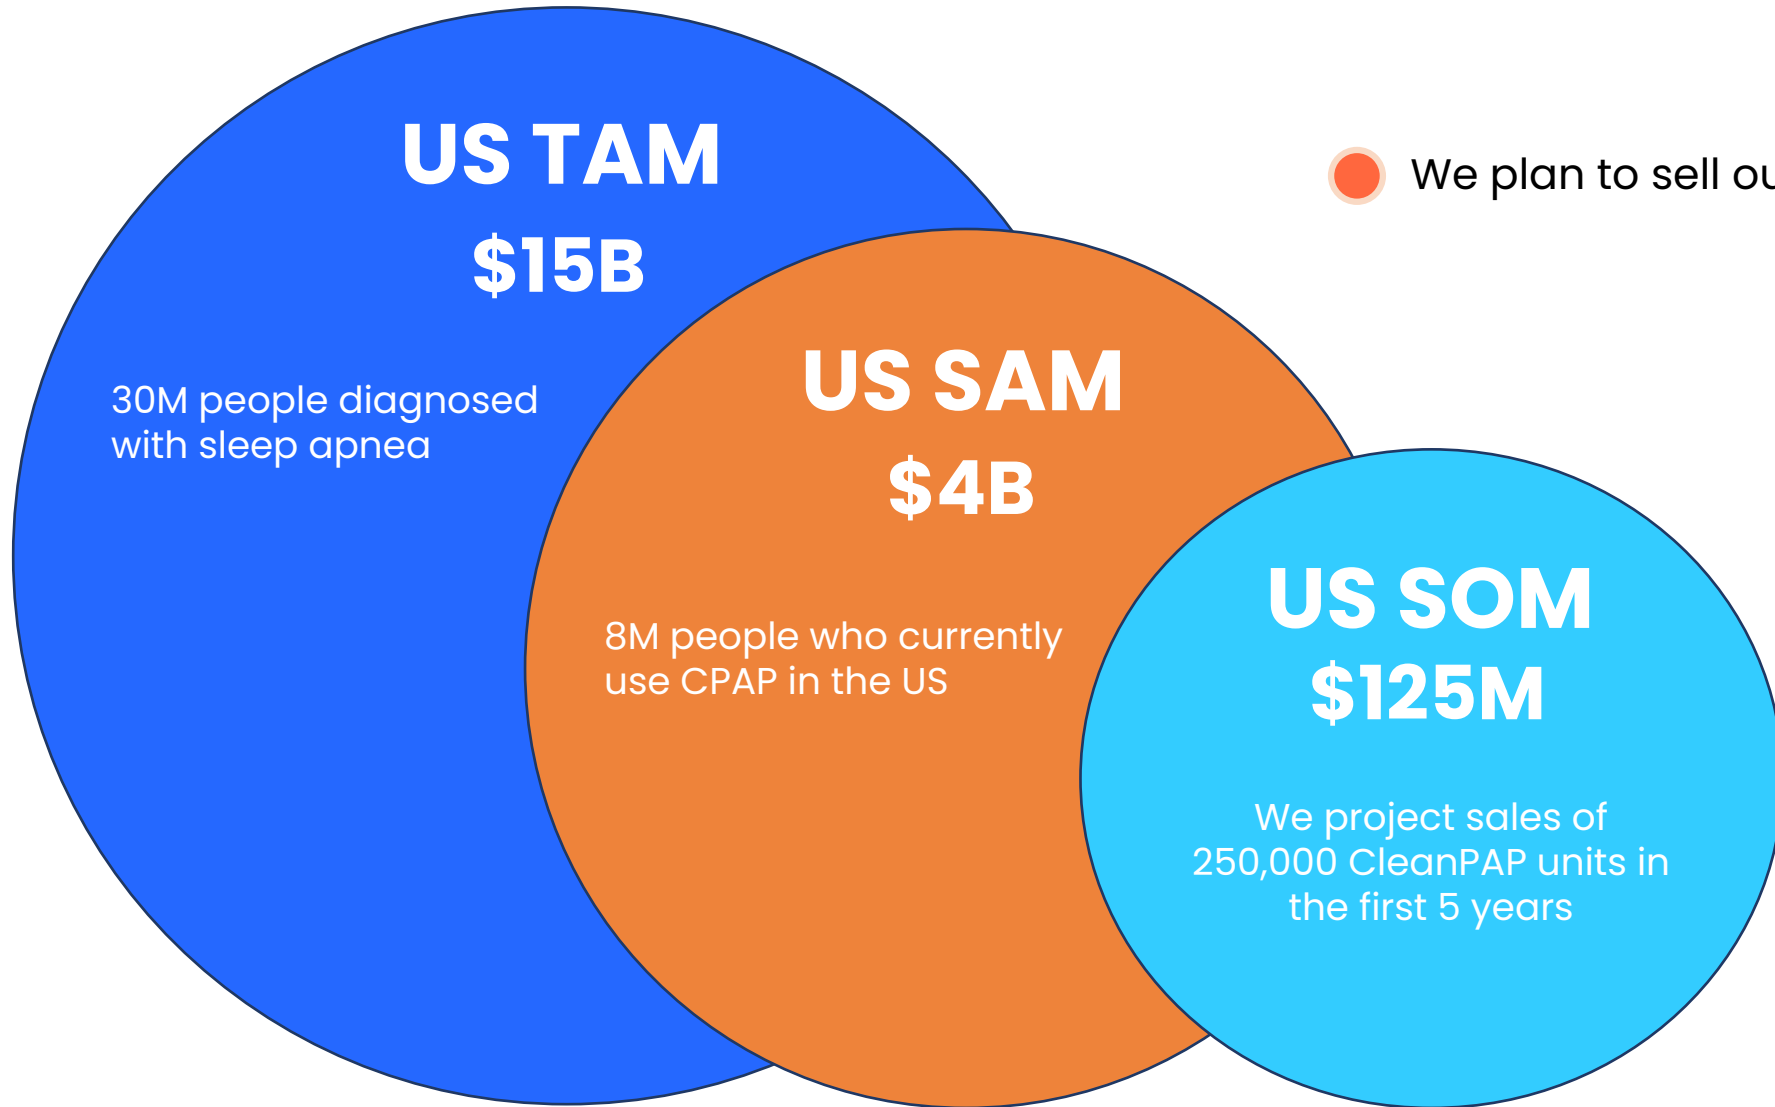

- \$718 billion projected market size by 2030
- 10% CAGR

“

“There are now, with the latest epidemiology rising up, around 1 billion people with obstructive sleep apnea that needs to be treated worldwide...”

- Mick Farrell
(CEO of ResMed)

● We plan to sell our product at \$499 per unit.

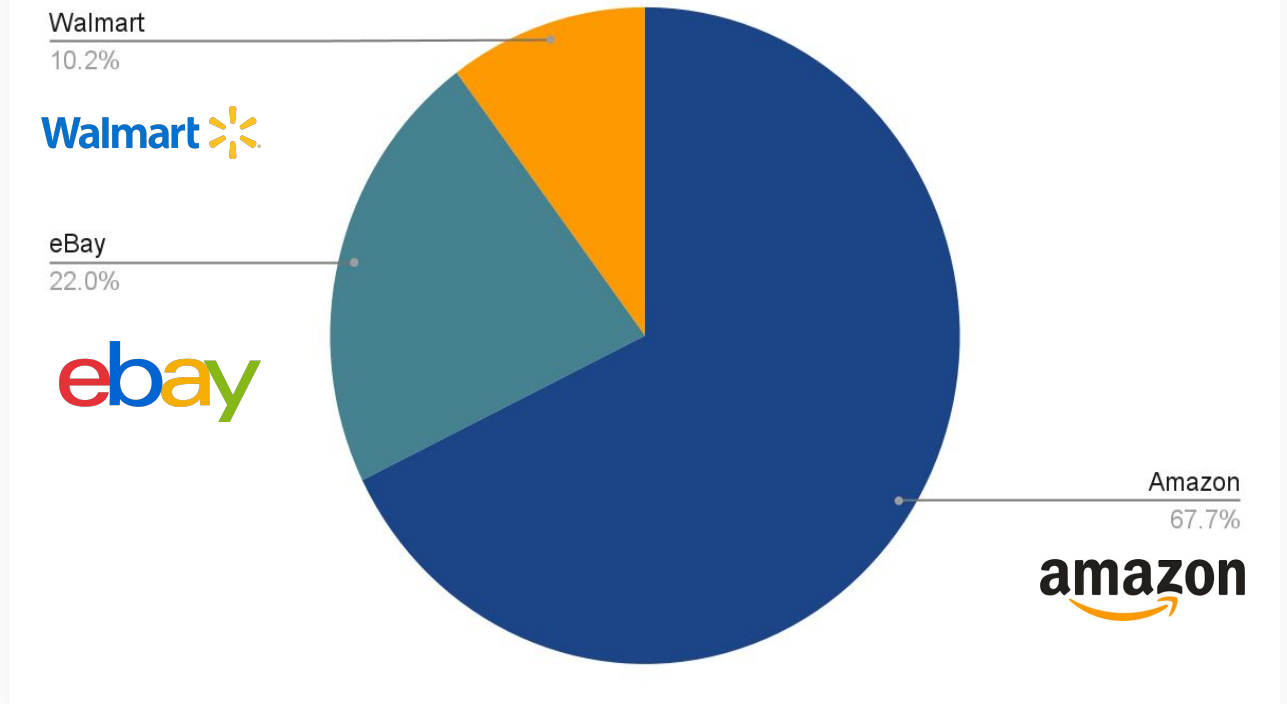

Market

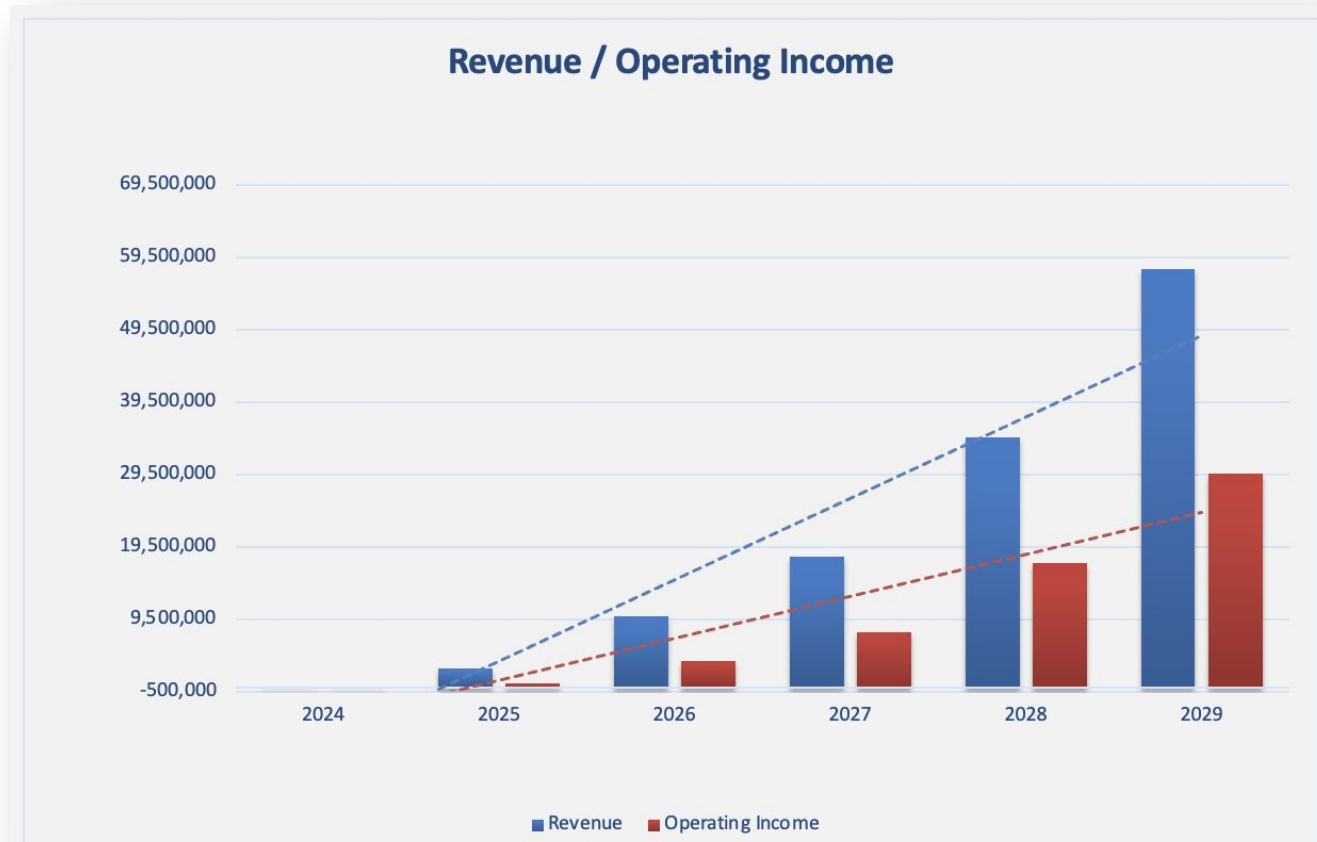

Market Statistics

Our Market:

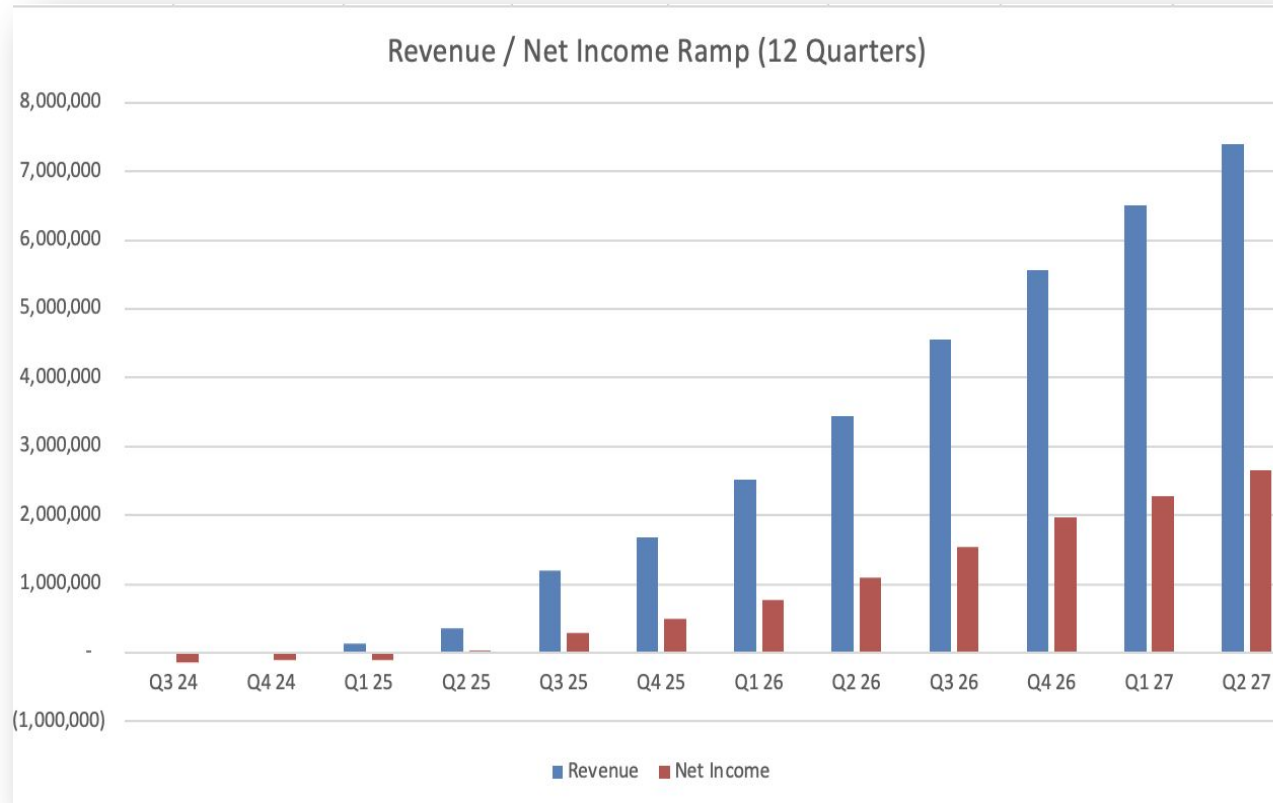

- **Price point** per cleaner sold - **\$499/unit**
- If costs per unit are limited to \$150, then we can expect a **70% Gross Margin per unit**
- Primarily Online Sales Distribution through **Direct-to-Consumer**

Monthly Visitor Statistics as of 2023

CleanPAP™ Yearly Net Report

CleanPAP™ QUARTERLY REPORT

Vision

"Our vision is to be the leading provider of CPAP cleaning products and ultimately CPAP devices, recognized globally for our dedication to health, safety, and innovation. We aspire to set the standard in CPAP hygiene, empowering users to achieve better sleep and well-being."
